Western Media Group President Issues Letter to Address Shareholders Inquiries Regarding Med-Link USA

FOR IMMEDIATE RELEASE

COMMACK, New York /EWORLDWIRE/May 5, 2003 --- Western Media Group (OTCBB: WMGC), a publicly traded holding company, issued this letter from the President to address recent shareholder inquiries to Med-Link USA:

Dear Western Media Group Shareholders:

This year we have continued to make strides with our Med-Link USA portfolio company and we continue to strive towards profitability. Med-Link USA provides cost-effective and scalable HIPAA compliant network and communications services for the healthcare industry, allowing physicians, insurance companies and other medical professionals a private network for the free flow of communication. There is currently a micro-revolution underway in the healthcare industry as every physician, healthcare provider, insurance company and medical professional has been issued a deadline by the federal government to provide this type of secure transmission, storage and communication of medical information by the end of 2003.

Medical information has been remanded to a paper system, largely ignoring the need to organize, cross reference patient information, and allow access to medical professionals. This paper system has become antiquated and in need of an overhaul for quite some time, yet financial and economic restraints as well as the complex technology associated with such a task have been too great.

Our New Island Hospital virtual private network will be operational soon and we plan to continue to market our services to hospitals, insurers, laboratories, insurance companies and other medical vendors to create a network that has been long overdue and drastically needed in the healthcare industry.

We will continue to update our shareholders as often as we can, and we thank you for your support and feedback to our shareholder registry cards. Open lines of communication are very important to Western Media, and we thank you for your time and patience.

Best Regards,

Konrad Kim
President

About Western Media Group Corporation
