

ControlScan Certifies SlyFoxMx.com As A Safe Shopping Site

In an effort to increase its Internet security, SlyFoxMx.com , the leading provider of online discount motocross gear and apparel, today announced that it has become certified by ControlScan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/April 20, 2006 --- "Privacy and security are the main concerns of consumers," says ControlScan President and CEO Richard Stanton. "Consumers want to do business with companies who take privacy and security seriously. By passing the audits associated with the Corporate Secure Plan, SlyFoxMx.com's visitors are reassured that this company is committed to protecting their personal and credit card information and providing a safe online shopping experience."

Once a company passes the security process associated with the Corporate Secure Plan it will receive the Hacker Defended, ID Theft Protected, Privacy Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing SlyFoxMx.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

About Corporate Secure Plan

ControlScan's security certifications are rapidly becoming the industry standard for privacy protection. The certificates assist in meeting the criteria for mandates in Europe, Japan, Canada, ISO and the United States. By using business plans unlike any other Internet security solution companies, ControlScan is able to custom protect companies and its consumers. As a business is put through the certification process, ControlScan is able to show the company where its weaknesses lie. If a company does not pass the test, ControlScan's experts work with the company to increase its security until they meet the standards. Therefore, customers who see ControlScan certifications on a Web site can shop with ease, knowing that the business is working towards ensuring consumer safety.

About SlyFoxMx.com
