

ControlScan Certifies InternetCigarSales.com As A Safe Shopping Site

In an effort to increase its Internet security, The Cigar Hut, a leading online cigar and cigar accessories store, today announced that it has become certified by ControlScan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/May 25, 2006 --- Once a company passes the security process associated with the Business Secure Plan it will receive the Hacker Defended, ID Theft Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing InternetCigarSales.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

"As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, businesses owners understand that they must take precautions to protect themselves and their customers from these criminals," said Jim Bullen, owner of InternetCigarSales.com. "By using ControlScan's Business Secure Plan we hope to give both parties the assurance that their transactions are secure."

About The Cigar Hut

Since 1999, The Cigar Hut has offered Cigars and Cigar Accessories at discount prices delivered fast and fresh right to the customers' door. With over 1200 products in its easy to use secure shopping cart all covered by their 100 percent money back guarantee, The Cigar Hut provides no risk shopping, secure servers, easy to use Web sites, and a 100 percent quality guarantee.

About ControlScan

ControlScan provides third party verification and services to identify, measure and prioritize security, privacy, quality, accessibility and compliance risks that exist on corporate Web properties. ControlScan solutions provide the visibility and control necessary to evaluate a company's Web property risk exposure, and to put processes and procedures in place to effectively implement online governance strategies.
