

ControlScan Certifies Muscleoutlet.com As A Safe Shopping Site

In an effort to increase its Internet security, Muscleoutlet.com, the leading online seller of brand name bodybuilding and fitness nutrition, today announced that it has become certified by ControlScan.

For Immediate Release

MARIETTA, Ga./EWORLDWIRE/June 14, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, MuscleOutlet.com hired ControlScan and subscribed to the Business Secure Plan. Through its unique process, ControlScan will conduct security tests and audits of Muscleoutlet.com and certify the site's security.

Once a company passes the security process associated with the Business Secure Plan they receive the Hacker Defended, ID Theft Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing Muscleoutlet.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

"As information about privacy and security becomes more rampant, consumers are learning that it is not safe to give just any business their personal information. Likewise, businesses owners understand that they must take precautions to protect themselves and their customers from these criminals," said the owner Jim Shaham at Muscleoutlet.com. "By using ControlScan's Business Secure Plan we hope to give both parties the assurance that their transactions are secure."

About Muscleoutlet.com

Muscleoutlet.com offers deep discount brand name nutrition up to 40-75 percent off retail. It can also provide visitors with nutrition for bodybuilding, weight loss, weight gain, wellness plus more. Muscleoutlet.com has over 10 years of hardcore distribution experience in magazines such as Muscle and Fitness and Flex.

About ControlScan

ControlScan provides third party verification and services to identify, measure and prioritize security, privacy, quality, accessibility and compliance risks that exist on corporate Web properties. ControlScan solutions provide the visibility and control necessary to evaluate a company's Web property risk exposure, and to put processes and procedures in place to effectively implement online governance strategies.
