

ControlScan Certifies Showtimetickets.com As A Safe Shopping Site

In an effort to increase its Internet security, Showtimetickets.com, Canada's leading online ticket agency, today announced that it has become certified by ControlScan.

For Immediate Release

ATLANTA/EWORLDWIRE/Aug. 1, 2006 --- As a measure to increase privacy and security and to prevent hackers and thieves from accessing sensitive information from its customers, Showtimetickets.com hired ControlScan and subscribed to the Corporate Plan. Through its unique process, ControlScan will conduct security tests and audits of Showtimetickets.com and certify the site's security.

Once a company passes the security process associated with the Corporate Secure Plan it receives the Verified Secure, ID Theft Protected and Business Background Reviewed certificates. These certificates are renewed daily, allowing Showtimetickets.com's customers to receive independent third-party verification of the site's actual security before they decide to give out sensitive personal data.

About Corporate Secure Plan

ControlScan's security certifications are rapidly becoming the industry standard for privacy protection. The certificates assist in meeting the criteria for mandates in Europe, Japan, Canada, ISO and the United States. By using business plans unlike any other Internet security solution companies, ControlScan is able to custom protect companies and their consumers. As a business is put through the certification process, ControlScan is able to show the company where its weaknesses lie. If a company does not pass the test, ControlScan's experts work with the company to increase its security until it meets the standards. Therefore, customers who see ControlScan certifications on a Web site can shop with ease, knowing that the business is working towards ensuring consumer safety.
