

Storage Visions 2008 Conference Announces First Day Program for January, 2008

Keynote Speakers Chosen and TV Worldwide to Provide Conference Webcast

For Immediate Release

SAN JOSE, Calif./EWORLDWIRE/Nov. 6, 2007 --- The Storage Visions conference is the premier conference focusing on digital storage and the entertainment content value chain. Storage Visions 2008 will be held January 5 and 6, 2008 at the Flamingo Hotel in Las Vegas, just before the 2008 CES. Over 500 people are expected at SV08 with press and analysts making up 15-20 percent of this number.

Clyde Smith, senior vice president of Turner Broadcast, will give a keynote on The Business Cases and Storage Implications of the Material Exchange Format on January 5. This presentation showcases the business applications driving rapid deployment of MXF for the efficient management of media content during digital production and addresses the implications for storage systems and components. The second day features keynote talks by Samsung Semiconductor and Hewlett-Packard.

Some other conference highlights on the first day of the conference:

- . Storage and Content Creation, Editing and Distribution: Find out about the enormous digital storage capacity and awesome technologies needed to capture and edit and distribute new content as well as preserve historical content.
- . What's Next in Storage and Who is Buying it: Noted analysts, CE retailers, entertainment creation and distribution experts and storage analysts demonstrate how content creators and distributors as well as consumer device manufacturers embrace new technologies.
- . Storage Intelligence and Content Protection: Intelligent storage devices will be a major driver of the entertainment and consumer electronics industry. This session explores emerging business opportunities and examines the role digital storage will play in digital content and privacy protection.
- . What Sells in Entertainment and Consumer Storage: What's the financial outlook for storage companies working on entertainment and personal storage? Learn what VCs are investing in now.
- . I'm Your Future, Hear me Roar: What does the next generation want in digital storage and consumer electronics? Consumers in their late teens and early 20s discuss how they use devices and what role digital storage will play in the products that appeal to them.
- . Special Session on Sales Trends in Consumer Storage Markets
